

Notes:  
 Outer panel material is 3/4" MDF.  
 Middle layer is 1/8" loaded vinyl.  
 Inside panel material is 3/4" plywood.  
 Flanges may be slightly smaller so there is room for adjustment.  
 Horn is milled down so the diameter of its opening is 1 1/2".

this needs to be revised measurements are accurate to what was cut, but not other drawings.  
 when putting together baffle look at it, and trim from the top!!!!!! baffle is 1/8th inch too tall.
